PROJECT DESCRIPTION

- **EZPark** is designed to help communities in Bandar Pekan who are evolving towards a digital community. It offers a simple and friendly experience for everyone, including first-time users and the non-tech-savvy, to easily manage parking and pay fines.
- **Purpose** : Offering simple and easy-to-use features to encourage the community to go digital.
- **Concept** : Simple and useful apps for user can pay parking fees and saman fines digitally.

PROBLEM STATEMENT

- The current system for paying parking fines (saman) is old, slow, and confusing.
- There's no proper system to manage payment well, making it harder for people to move around town.

OUR SOLUTION

Digital payments & Saman management

- FPX payments are accepted here. We allow customers to complete their transactions using the FPX online payment gateway.

FamilyKlik

- Lets users pay for someone else's plate

Recommendations of place & Additional registration

- Tourist Attraction and Family Accommodation

Reminder of anything

- Sticky note button: the note will show on your notification After paying parking
- Reminder of parking expiration (can choose to extend or not)

THANK YOU
